"Hi my name is Emory Morrow broad casting from your computer our fist segment is about the new sport blubberda . Blubberda is wiping the nation. Here is how you play first you gets two tennis rackets' one racket ball. Only two people can play. The main goal is to hit the goal before the other person does. Is very entertaining to watch. It is the only sport I am good at because I made it up. Hahahahaha. Well, kids all around the world will you help me spread this sport around the globe it will be a sensation.
